SOFTWARE DEVELOPER

Hands-on full-stack experience building features for a production RAG (Retrieval-Augmented Generation) platform.

TECHNICAL SKILLS

Languages & Frameworks: C# (.NET 8), TypeScript/JavaScript, React, Next.js, Node.js, Web API
Data & ORM: Entity Framework Core, LINQ, SQL Server, Oracle PL/SQL, PostgreSQL, Prisma, Weaviate
Tooling & Practices: Docker + Docker Compose, Swagger/OpenAPI, Git/GitHub, Vitest, Playwright, Visual Studio 2022, Linux CLI, PowerShell/Bash, Agile/Scrum
Frontend Styling: Tailwind CSS, Vite

PROFESSIONAL EXPERIENCE

Software Engineering Intern *May 2026 – Present*

- Developed two full-stack features end to end for an internal Retrieval-Augmented Generation (RAG) platform, working across the Next.js/React/TypeScript frontend and Node.js backend
- Implemented backend logic integrating PostgreSQL (via Prisma ORM) and a Weaviate vector database to support retrieval functionality
- Wrote unit tests (Vitest) and performed smoke testing to validate new features before internal review
- Worked within a Dockerized development environment, following the team's Agile/Scrum workflow and structured SDLC practices

ABA Technician *Oct 2023 – 2026*

- Performed daily data collection and analysis, developing strong attention to detail and accuracy

Fence Installer (Seasonal) *2016 – 2026*

- Demonstrated proven reliability and strong work ethic in physically demanding roles

FEATURED PROJECTS

Customer Management REST API — ASP.NET Core 8 + EF Core + Docker *2025*

- Designed and built a full CRUD API using clean architecture and the Repository pattern
- Implemented EF Core Code-First workflow: migrations, complex relationships, and seed data
- Integrated Swagger UI and fully containerized the app with Docker Compose (API + SQL Server)

Personal Portfolio Website — React + TypeScript + Tailwind CSS *2025*

- Built a fully responsive single-page app with dark mode and smooth animations
- Built with Vite, React hooks, and strict TypeScript

OTHER PROJECTS

- Various console apps and automation scripts in C#, Python, and Bash
- Turn-Based RPG — built with C# and Unity
- Experience Tracking System — contributor to an open-source RuneLite client plugin

EDUCATION

Elms College, Chicopee, MA *Current*

B.S. Computer Engineering — Projected Graduation 2027

Springfield Technical Community College, Springfield, MA *Graduated May 2026*

Associate of Science – Computer Programming & Web Development | GPA: 3.7 / 4.0

Relevant Coursework: Advanced C#, Database Systems (Oracle & SQL Server), Web Development, Linux Systems, Python, Basic Networking & Security Practices
